This map represents active storage facilities for some of Montana's agricultural commodities, including cereal grains, pulse crops, and oil seeds. Facility types include processors, elevators, and feed lots; contract buyers; and BNSF Railway Premier Transloaders are also included. This map was developed in coordination with the Montana Department of Agriculture and the Montana Wheat and Barley Committee.

Map is available with options for various layers online at arcgis.com.

Agricultural Commodity Storage Facilities
Storage Capacity

- Under 250,000 Bushels
- Between 251,000 - 500,000 Bushels
- Between 501,000 - 750,000 Bushels
- Over 751,000 Bushels

Car Capacity

- Other Facilities (Car Capacity < 52)
- Unit Facilities (Car Capacity 52 - 75)
- Shuttle Loading Facilities (Car Capacity = 110)

Note: Categories based on actual car capacities; (i.e., none carry between 76-109 cars)

0 25 50 100 150 Miles
0 25 50 100 150 Kilometers

Railroad Line Operator

- BNSF - Class I
- BNSF (Inactive)
- UP - Class I
- MRL - Class II
- MRL (Inactive)
- CMR - Class III
- CMR (Inactive)
- DMVW - Class II
- BA&P - Class III
- MMR - Class III
- SPKE - Class III
- AGSL - Class III
- YSVR - Class III
